Project CARE Coalition's

SECURITY LIGHTING PROJECT:

for Central City Older Adult Residents

Introduction. The Salt Lake County Project CARE Coalition wants to help reduce crime by making available free security lights to reduce prowlers and strangers near your home. Local electricians and the AFL-CIO have agreed to donate their time to install motion-activated light fixtures with floodlights on homes owned by senior citizens in targeted locations in Central City. The Coalition is supplying light fixtures and floodlights at **no cost** to you and which have been donated or discounted by various local suppliers.

How the Program Works. Complete and return the attached "Request Form" and indemnification form to:

Tab L. Uno
Project CARE Coordinator
2001 South State, Room #S1500
Salt Lake City, Utah 84190-2300
(801) 468-2457

Your request will be placed on a register and sent to an licensed electrician. The electrician will make an appointment with you to install the lights. Both you and the electrician must agree on the location of the lights. Should you disagree, the Project Care Coordinator in consultation with the Salt Lake City Police Crime Prevention Unit, you the property owner, and the electrician will make the final decision. A number of adjustments after installation may be required to set the right sensitivity of the motion detector to work properly. Because the electricians are volunteering their time, all participants must be patient and allow them to fit any adjustments into their busy schedules.

Indemnification Agreement. Because this public service is made available using **volunteers** and **donated** supplies, the property owner and tenant must agree that the County, volunteers, and donors will not be held liable or responsible for damages, defects, or injuries that "might" result from the installation of these security lights. Should any light fail because of manufacturer defects, the manufacturer's warranties, if any, would be applicable.

Other Actions to Reduce Crime. Installing exterior lights is only one action you can take to reduce crime in your neighborhood. Security lights by themselves will not prevent crime from occurring. It is recommended that you take other security measures to protect your home. No one is ever absolutely safe from crime, but you can increase your safety significantly by taking a few steps:

- Solid doors, frames, hinges with securely mounted deadbolt locks
- Wide-angle lens peephole
- Secured sliding doors fitted with swinging metal rods
- Secured double-hung windows using a nail insertion
- Secure window latches
- Metal window gratings for jalousie/awning windows
- Cost effective alarm system (research before buying)
- Trim concealing trees, bushes, and shrubs
- Neighborhood watch

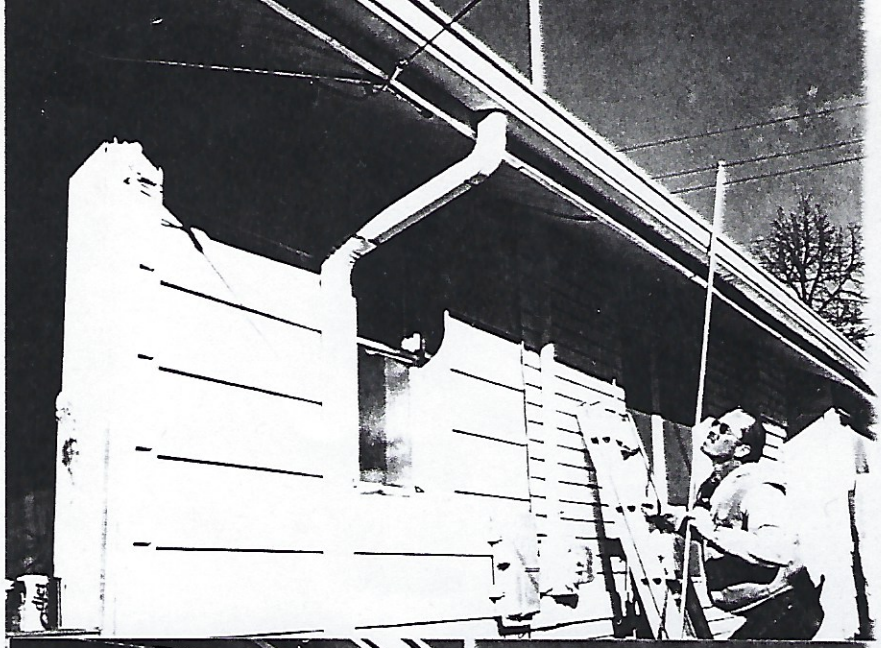
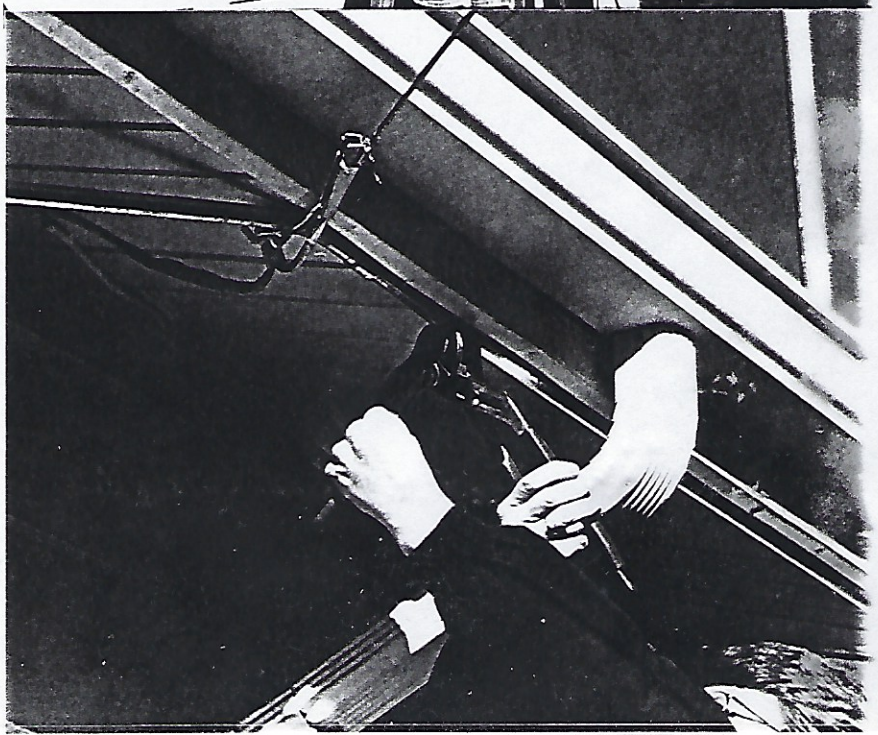
For more information about how you can protect your home, contact the Salt Lake City Police Crime Prevention Office at 799-3440.

Project CARE Coalition. The Project CARE (Community Action to Reach the Elderly) Coalition is a partnership of government agencies, community organizations, and businesses sponsored by Salt Lake County Aging Services to address the needs of senior citizens. The Coalition has targeted Central City as its first site for its services. Anyone interested in participating in its activities, please call Tab L. Uno, Project CARE Coordinator at 468-2457.





Security Light Project

Kennecott Corporation provided a $1,000 grant and Ernst Home Center donated 15 light fixtures to provide free security lights for Central City senior citizens.

International Brotherhood of Electrical Workers Local 354 donated labor and electrical supplies to install free security light fixtures and floodlights on older adult homes in Central City to reduce the incidence of vandalism and larceny.
